

Every Eurospa model features deep hydrotherapy seating, with multi placement jets to give a different massage experience in each seat, a powerful 2- speed pump with venturi air controls allows you to tailor your massage to suit your individual requirements while the colour changing backlit Cascade waterfall soothes your mind.

With exceptional durability thanks to a one piece roto-moulded construction, guaranteed to give you years of trouble free use. Supplied with a C form plug and 4M cable, Eurospa are the original Plug-and-Play hot tub.

ECO

All Eurospa's come with a rigid insulation cover and are fully foam filled to help reduce energy consumption and lower your bills.

Every model features our Unique LED backlit Cascade waterfall
