

Affinity Classic

AFCLASSIC/B

Affinity Classic is a luxurious, 2-section, static couch that has been designed for use in a number of different treatment settings such as spa, beauty, holistic, medical and massage. As with all Affinity couches, client and therapist comfort is a key factor with design and the Classic will meet all expectations.

With a generous 3.5 inches of sumptuous Therafoam comfort padding and soft touch PU upholstery, the Affinity Classic takes client comfort to another level. This dense foam has been designed to provide excellent feedback for massage whilst still offering exceptional comfort for those treatments reliant on relaxation. For added comfort and convenience, not to mention flexible therapist positioning, the Classic benefits from our Affinity ergonomic breathe hole with plug as well as a face cradle frame with comfort cushion and padded hanging arm rest.

The lifting backrest is adjusted via a smooth, silent, trouble-free lever system which allows the therapist to set the height wherever they choose – simply lift and stop when the required angle has been reached. A light push down on the lever will allow the backrest to be gently lowered.

A great feature of the Affinity Classic is its height adjustment. With 10 different settings available, ranging between 61cm to 84cm, and quickly adjusted with our rubberised, easi-grip adjusters, this beautiful couch can be comfortably used by a number of different therapists, offering a variety of treatments making it the perfect couch for a shared treatment/therapy room.

As well as being a truly luxurious, great-looking couch, the Affinity Classic will ensure your customers have the best treatment experience and will happily slot into any environment thanks to its classic and timeless design.
