# Welcome to the Hot Tub Revolution

Thank you for purchasing Hydro Balance. It not only helps you take care of your hot tub, it helps your hot tub take care of you. Our simple three-step system enables you to reap the benefits of cleaner and better-feeling water, making your regular water maintenance routine more straightforward.

## Inside this box, you will find:

- 1 instruction manual
- 1 measuring cup
- 1 bottle of Cleanse
- 1 bottle of Tonic
- 1 bottle of Revive

# How does Hydro Balance work?

**Hydro Balance is made up of three simple steps:**

## STEP 1:

**Cleanse** is our deep-cleaning, powerful solution for harboured waste in pipework, and is designed to remove these contaminants from your system. By removing these, your sanitiser is free to perform its primary role.

## STEP 2:

**Tonic** is a mineral-based dual action water conditioner. Not only does it improve the feel of the water on your skin, making it feel soft and pampered, it also protects the pipework from contamination build up, improving your water quality.

## STEP 3:

**Revive** provides a crystal-clear finish that keeps your water looking as good as it feels. In addition to maximising the appearance, it also improves the efficiency of your filter and circulation system.

## How to use Hydro Balance?

Each Hydro Balance kit comes with a 12-week supply of each of its three chemical components.

### Cleanse – Every 12 Weeks

1. Remove the filter cartridge from the filter compartment.
2. Ensure the water level is at least 50mm above the jets.
3. Run the hot tub/spa and pour the required dose into the filter compartment.
4. Run for a minimum of 30 minutes.
5. Turn off the hot/tub and spa for 30 minutes.
6. Run the hot tub/spa for a further 30 minutes.
7. Drain the hot tub/spa and using a garden hose wash away any debris from around the shell and jets.
8. Refill with fresh water.
9. Sanitise the hot tub/spa with your chosen disinfectant before re-using.
10. This should be repeated every 12 weeks

### Tonic – Every Week

1. With the circulation running add the required dose of Hydro Balance Tonic as per the dosing rate table below.
2. Balance your water if necessary.
3. Repeat dosing on a weekly basis, preferably on the same day each week.

#### Dose Rate:

Volume of Water	Dosage
1,000L	40ml
1,800L	70ml

### Revive – Every Two Weeks

1. Ensure the water is correctly balanced.
2. Clean the filter/s before use, we recommend the use of Lo-Chlor Instant Filter Cleaner.
3. Add the required amount of Revive to the hot tub/spa.
4. Run the circulation pump for a minimum of 1 hour to ensure Revive is fully infused with the water.

#### Dose Rate:

Volume of Water	Dosage
1,000L	40ml
1,800L	70ml

## Professional Tips

- Whether your hot tub is brand new, you've had it a while, or you have been using another system, introducing Hydro Balance could not be simpler. Flush and drain with Cleanse and you are ready to go with no need for auxiliary products.
- When first converting your hot tub onto the Hydro Balance system, always dose Revive, with the circulation running, 24 hours after your initial dose of Tonic.
- Regular filter cleaning will help further improve water quality and will help Hydro Balance deliver even better results. We recommend the use of Lo-Chlor Instant Filter Cleaner.
- Long-term use of our system helps keep water balanced. However, water should still be regularly tested.

## Why use Hydro Balance?

Hydro Balance has been designed with YOU at its heart.

YOU can immerse yourself in crystal-clear hot tub water, with Hydro Balance's unique clarifying properties.

YOU will spend less time worrying about your water management, as Hydro Balance takes care of this for you.

YOU can relax and unwind, knowing Hydro Balance ensures your hot tub is working efficiently.

## Precautions & Warnings

Always ensure bathers are out of the hot tub or spa when adding chemicals.

Never mix with any other chemicals or cleaning products as a dangerous reaction may occur.

Read and follow all instructions carefully, dose rates given are a guide to the most effective use.

Always handle products in a well-ventilated area. Store in a cool, dry, secure place.

Do not get in the eyes, on the skin, or clothing.

Keep out of the reach of children.

This container must not be used or contaminated with any other materials. Wash out and dispose of this container through an approved facility, this plastic container can be recycled.

The above statements are based on information believed to be accurate and reliable. The purchaser assumes all risk of use and handling where the product is not used in accordance with the directions given.
